

FALL 2025-2026

ESKİŞEHİR OSMANGAZİ UNIVERSITY ELECTRICAL AND ELECTRONICS ENGINEERING DEPARTMENT

COURSE REGISTRATION GUIDE

Updated: September 10, 2025

Each student has to register for courses before the classes begin. The responsibility for registration rests on the student. Each student is responsible for the selection of courses. The advisor provides guidance and approves the student's selection of courses.

It is highly recommended that each student subscribes to the department e-mail group and "read" the mail regularly: <https://groups.google.com/g/esogu-eee>. The latest announcements are made via this mail group.

REGISTRATION DAYS

To even out the internet data traffic of the university servers, each department has a time slot for registration. Electrical-Electronics Engineering Department course registration is carried out online via OGUBS Student Information System (<https://ogubs1.ogu.edu.tr>) in the time slots indicated below:

September 15, 2025 (Monday)	08:00 – 10:30	Registration only
	13:00 – 23:00	Registration and approval
September 19, 2025 (Friday)	08:00 – 17:00	Registration and approval

DROP-ADD DAYS

Once the advisor approves the course registration, the student may not make any changes in the courses already registered. The student is expected to attend the courses from the day one to understand the requirements and other policies of the course. If the student wants to make any changes in the registered courses such as dropping one elective and add another elective or changing the group of the course, he or she has to wait for the DROP-ADD days. With the assistance of the advisor, the student can make changes provided that there is at least one seat is available in the class. For this semester, the drop-add days are as follows:

September 24, 2024 Wednesday	08:00 – 17:00
September 25, 2024 Thursday	08:00 – 17:00
September 26, 2024 Friday	08:00 – 17:00

Do not leave your registration to the last minute.

COURSE REGISTRATION

The Registrar's Office announces the registration procedure before each registration period. The instructions for registrations and other announcements regarding students would be in Turkish and can be found on their web page: <https://oidb.ogu.edu.tr> Here is a summary of the instructions.

- 1) You must pay the registration fee (tuition) through TEB (Türkiye Ekonomi Bankası) university fee payment procedure. The amount you were supposed to pay is indicated on the course registration (DERS KAYIT link on <https://ogubs1.ogu.edu.tr>) page. Note: International students must pay the registration fee through the TEB bank branches. The payment may be paid as of **September 12, 2025**. TEB banking machines and TEB mobil applications may be used for the payment. Transfer from other banks to the university TEB account is NOT an ACCEPTABLE method of payment.
- 2) The courses you must take to get your diploma are listed on your study plan: (<https://eee.esogu.edu.tr/en/Sayfa/Index/50/curriculum-and-courses>). You shall register to the courses listed under the current semester under normal conditions. If you have failed some courses and they are offered in that semester, you need to select them or their equivalent first. If your GPA is below 2.00, then you may have to register some courses before you could register new ones.
- 3) If you see “M.D. Yok” warning next to the course title, you should not register that course. That course may not be compatible with your program of study.
- 4) Once you have selected the courses, you can let your advisor know that your selection of the courses is complete, so he can check and approve it. If your advisor notices some problems with your selection, he or she may send you a note on the registration page. If he or she sees no problem, the advisor will approve your registration. Once the advisor approves your registration, you cannot access the registration page. If there are any problems, you will fix them with your advisor during the drop-add days.
- 5) If your advisor does not approve your registration, your name will not appear on the class rosters (attendance sheets). You must get in touch with your advisor and complete your registration during the drop-add days. Without the approval of the advisor, your registration will be **INCOMPLETE**.
- 6) The students is primarily responsible for the registration process—not the advisor.

COURSES WITH PREREQUISITES

The Student Information System checks for the following prerequisites during the registration:

COURSE	PREREQUISITE
Circuit Analysis II	Circuit Analysis I
Digital Systems II	Digital Systems I
Electromagnetic Waves	Electromagnetic Fields
Communications	Signals and Systems
Electronics I	Circuit Analysis I
Electronics II	Electronics I
Principles of Energy Conversion	Electromagnetic Fields
Fundamentals of Control Systems	Circuit Analysis II
Introduction to Microcomputers	Digital Systems II or Logic Design

If the prerequisite condition is not met, the registration is not possible. In addition to the table above, some nontechnical courses such as German I and German II are taken in a proper sequence.

FOR THE FRESHMAN (FIRST YEAR) STUDENTS

The first year students should register the following courses—unless they have taken some of the courses already:

- Calculus I
- Physics I
- Physics I Lab.
- Introduction to Electrical and Electronics Engineering
- Introduction to Programming
- Chemistry
- Expository Writing
- Social Elective I
- Atatürk İlkeleri ve İnkılap Tarihi I (Section D) (offered under MMF DEKANLIĞI I. ÖĞRETİM)
- Türk Dili I (section B) (offered under MMF DEKANLIĞI I. ÖĞRETİM)

Some courses have more than one section (A, B, C, ...) The schedules, instructors and available spaces are indicated on the selection window. You need to select one section only.

The last two courses for freshmen are in Turkish. There are special courses for the international students as alternatives to these courses:

- Türk Dili Özel I (MMF Dekanlığı 1. Öğretim 1)
- Atatürk İnk. Ve İnk Tarihi I (Özel) (MMF Dekanlığı 1. Öğretim)

The Social Elective courses are visible under REKTÖRLÜK EĞİTİM BİRİMLERİ> REKTÖRLÜK SOSYAL SEÇMELİ DERSLER pull-down menu. You should choose one of the following:

801211062	CRITICAL PEDAGOGY	Arş. Gör. Dr. B. BAŞARAN UYSAL
801211065	CRITICAL READING AND WRITING	Öğr. Gör. Dr. N. ARIKAN
801211067	CURRENT ISSUES I	Öğr. Gör. Ç. ARIZ
801211068	CUTTING-EDGE RESEARCH IN ENGINEERING I	Dr. Öğr. Üyesi F. DİRİSAĞLIK
801211072	HISTORY OF ENGINEERING I	Dr. Öğr. Üyesi G. ELİBOL SEÇİL
801211066	HISTORY OF SPORTS I	Dr. Öğr. Üyesi B. URAZEL
801211063	MEDIA LITERACY I	Öğr. Gör. Dr. M. YAŞAR
801211073	MUSLIM SAINTS AND MYSTICS	Prof. Dr. H.H. ERKAYA
801211064	TENNIS EDUCATION I	Öğr. Gör. Ö. KOÇAK

You should not register a course marked as “M.D. Yok”

NONTECHNICAL ELECTIVE COURSES

Depending on your own program of study, you may have to take three or four nontechnical courses (9 or 12 credits in total)

The freshman (the first year) students should not register for these courses.

Regardless of the semester or year they are offered, these courses are equivalent courses—if you fail one of them, you can replace it with a different nontechnical elective course. For new students, these courses are grouped according to the semester they belong to. The flexibility is limited. Some courses are offered with two different codes. You should **not** take the ones that are marked as “M.D. Yok.”

Nontechnical Course	Instructor	Schedule
Current Issues in English I	İlker Üresin	Friday 14:00-17:00
German I	Aylin Ulsan	Friday 09:00-12:00
German II	Mukaddes Öğünmez	Friday 14:00-17:00
Advanced Grammar	Gizem Ç. Çakar	Friday 09:00-12:00
Beginning French I	Dilek Ercan	Friday 09:00-12:00
Oral Communication	Nejla Dal	Tuesday 13:00-16:00
Introduction to Bağlama	Deniz EROL KARACA	Friday 09:00-12:00
Turkish Folk Tunes with Bağlama	Deniz EROL KARACA	Tuesday 13:00-16:00
The Short Story	H. Hüseyin ERKAYA	Friday 09:00-12:00

TECHNICAL ELECTIVE COURSES

Depending on your program of study, you are required to take 20 or 22 credits of Technical Elective courses. You should consult with your “mezuniyet değerlendirme” tab. For this semester, the technical elective courses that are offered are listed below.

Important note: Some technical electives are popular among the students, and some third year students attempt to register these courses. **The senior (fourth year) students have priority to take these courses. The third year students can take these courses only during the drop-add days.**

Ders	T+U	AKTS	Kr	Öğretim Üyesi
OBJECT ORIENTED PROGRAMMING I	3+2	7	4	Dr. Öğr. Üyesi Sezgin SEÇİL
SEMICONDUCTOR DEVICES	3+0	5	3	Dr. Öğr. Üyesi Faruk DİRİSAĞLIK
POWER SYSTEMS ANALYSIS I	3+0	5	3	Prof. Dr. Salih FADIL
INTRODUCTION TO VHDL-FPGA	3+2	7	4	Doç. Dr. Erol SEKE
LINEAR CONTROL SYSTEMS	3+2	7	4	Dr. Öğr. Üyesi Gülin ELİBOL SEÇİL
ENERGY TRANSMISSION LINES	3+0	5	3	Dr. Öğr. Üyesi Burak URAZEL
PLC AUTOMATION SYSTEMS	3+2	7	4	Prof. Dr. Semih ERGİN
POWER ELECTRONIC APPLICATIONS	3+0	5	3	Dr. Öğr. Üyesi İpek ÇETİNBAŞ
INTRODUCTION TO POWER ELECTRONICS	3+2	7	4	Dr. Öğr. Üyesi İpek ÇETİNBAŞ
INTRODUCTION TO EMBEDDED SYSTEMS	3+2	7	4	Dr. Öğr. Üyesi Gökhan DINDİŞ
ELECTRICAL MACHINERY	3+2	7	4	Doç. Dr. Atabak NAJAFI
ELECTRICAL DISTRIBUTION SYSTEMS	3+0	5	3	Doç. Dr. Atabak NAJAFI
INTRODUCTION IMAGE PROCESSING	3+0	5	3	Dr. Öğr. Üyesi Helin DUTAĞACI
POWER SYSTEM QUALITY	3+0	5	3	Dr. Öğr. Üyesi Burak URAZEL
DIGITAL COMMUNICATIONS	3+0	5	3	Doç. Dr. Erol SEKE
RELIABILITY ENGINEERING (new)	3+0	5	3	Prof. Dr. Salih FADIL

LABORATORY COURSES

The lab courses are meant to be taken with the related theoretical course. The lab course may be taken alone only if the related course had been taken in previous semesters and attendance requirement had been met for that particular course.

Here is the list of laboratory courses and their pre or co-requisites:

Laboratory Course	Pre- or Co-requisite
Physics I Lab	Physics I
Physics II Lab	Physics II
Circuit Lab.	Circuit Analysis I
Digital Systems Lab	Logic Design
Electronics Lab.	Electronics I
Control Systems Lab	Fundamentals of Control Systems
Communications Lab	Communications
Microcomputer Lab.	Introduction to Microcomputers

“DESIGN PROCESSES” and “ELECTRICAL ENGINEERING DESIGN” COURSES

These courses are senior project courses. The senior project courses vary depending on the program of study for a student.

- 1) Students who started taking the department courses between 2010 and 2014 are required to take Electrical Engineering Design course.
- 2) Students who started taking the department courses in 2015 or later must take the Design Processes course before taking the Electrical Engineering Design course.
- 3) To take the Design Process course, the student must pass 150 ECTS credits of course load.
- 4) A student who takes Design Processes course, meets attendance requirements but fails the course with FF can take Design Processes and Electrical Engineering Design courses together.
- 5) If the student fails the 150 ECTS credit requirement, the department administration will drop the Design Process course from the student's registration.
- 6) Senior projects and project groups have been determined in the Design Processes course. Each student must register to the Electrical Engineering Design course section offered by the senior project advisor.

STUDENTS WHO HAVE TRANSFERRED FROM ANOTHER UNIVERSITY

Students who have taken some courses at other universities before getting admitted to the department must submit their transcript to the department for adaptation (*intibak*) program. The course contents and credits will be compared with those of the courses in the program of study, and some are accepted towards the program of study. Each transfer student may have a different adaptation program. The adaptation program is determined by a commission in the department, and a copy of the program is provided to the student. Before selecting the courses for registration, the student is advised to consult with the program to avoid unnecessary repetition of the courses that are already accepted for the program of study.

On the Student Information System (OGUBS), each student can see what requirements are already met in terms of course load through “Mezuniyet Değerlendirme” tab.

SOME IMPORTANT POINTS FROM THE UNDERGRADUATE RULES AND REGULATIONS

1) NUMBER OF STUDENTS IN A COURSE

- a. A required (non-elective) course or its equivalent is offered even if only one person registers.
- b. For an elective course to be offered, there has to be **at least 10 students** selecting the course at the end of the last day of registration.
- c. Dropping of an elective course is not allowed when the number of students in the course falls below 10.

2) RETAKING A COURSE

- a. Students who receive a grade of FF, YZ, DZ, or DÇ in a course must retake that course **in the semester it belongs to**. Students may also retake the course or its equivalent in the first semester it is offered if they wish.
- b. Students who began their freshman year in 2019 or later and whose GPA is below 2:00 and who have received a warning for academic inadequacy must retake the course **in the semester it belongs to** if they received a letter grade of DD or DC. Students may also retake the course or its equivalent in the first semester it is offered if they wish. (The regulations state this, but if you are not taking any new courses, you may not repeat courses with DC or DD grades.)
- c. Students who have a GPA greater or equal to 2.00 are **not required** to repeat courses with DD or DC grades. However, they may retake **any course** if they think they can get a better grade.

3) CREDIT LIMITS IN COURSE REGISTRATION

- a. Students who began taking courses in the department before the 2024-25 fall semester can register for courses worth a maximum of 22 local credits in the fall or spring semester. These students with a GPA of 3:00 or above may register for courses worth a total of 30 local credits in a semester, with the approval of their advisors.
- b. Students who began taking courses in the department during the 2024-25 fall semester or later can register for courses worth a maximum of 38 ECTS credits in the fall or spring semester. Students with a GPA of 3:00 or above may register for courses worth a total of 45 ECTS credits in a semester, with the approval of their advisors.
- c. There is no minimum course load limit.

4) RENEWAL OF REGISTRATION

- a. Students who fail to renew the registration on the announced days or fail to pay the registration fee or tuition lose their privileges recognized for the students.
- b. The administration **does not** carry out their registration on their behalf.
- c. **Registration without the approval of the advisor or without the due payment becomes invalid at the end of the drop-add period.**

The Department administration wishes you good luck with the registration and success in your courses.
